innovating for your city

investing in your future

Lure strategy

- As all the municipalities, the city of Lure have some problems which are harmful to its reputation and lower its attractiveness

- Solution: base Lure strategy on the revival of the city centre

- Facilitate housing (construction, rehabilitation)

- Revitalize the city centre by various means

Birth of the project

« Un cours, Une cour »

- To begin the renovation of its city centre, Lure asked to the Territoire de Belfort Town Planning Agency to realize a study which identify its strengths and weaknesses
- Points that Lure need to focus on:
 - The Avenue of the République
 - The Esplanade Charles De Gaulle
 - The secondary streets which connect the previous points
- Choice of the work master: Marion Talagrand
- Name of her project: « Un cours, Une cour »

- Here are the main project axes:
 - The green and relaxation spaces will be multiplied
 - Refurbishment works are planned
 - Roads will be redrawn to allow a better traffic fluidity
 - A bicycle path crossing the center will be born
 - The Esplanade Charles De Gaulle will be completely renovated
- However, because of budgetary problems, it was decided that it's not possible to pursue the project « **Un cours, Une cour** » at the present moment. The project of renovation of the city centre was arrested until new order.

Plan of renovation of
the « **Un cours, Une
cour** » project
